

SYNTHETIC LONG DRAIN Commercial ATF

Description:

VALUE TECH Synthetic Long Drain Commercial ATF is a premium quality synthetic fluid designed for use in commercial automatic transmissions.

While **VALUE TECH Synthetic Long Drain Commercial ATF** is not licensed by transmission manufacturers, it is designed for use according to the drain recommendations of the transmission manufacturer for the listed specifications.

Physical & Chemical Properties:

Viscosity @ 100°C cSt	7.4
Viscosity @ 40°C cSt	37.4
Viscosity Index	170
Density (lb/gal)	7.038
Brookfield Viscosity (-40°C) cP	8500
Foam Tendency	0/0/0
Copper Corrosion	1b

Features/Benefits:

- ✓ Excellent Thermal and Oxidative Stability for Long Transmission Life.
- ✓ Exceptional All-weather Performance in Both Hot and Cold Temperature Extremes.
- ✓ Durable Friction Properties Ensure Smoother Shifting Transmissions.
- ✓ Shear Stable for Long Term Viscosity Protection.

Applications:

Formulated for use in applications according to the listed performance specification:

- Allison TES-295 & TES-389, C-4
- GM Dexron® III
- Ford Mercon®
- ZF TE-ML 14C
- Voith G 607 & g 1363
